

Intact Platform Benefits for Standard Setters

We conducted an Intact Platform Success Study to find out exactly how standard setters are benefiting from using the platform. We collected data from a cross-section of our standard setting clients using a standard questionnaire and calculated the total return on investment (ROI) they have received from using the Intact Platform.

*ROI was calculated by comparing total investments (costs paid to Intact + internal costs like new hardware, staff hours etc.) to the total increase in revenue.

Efficiency Increase by Process Step

Efficiency Increase

- On average, the workflow became more efficient within a 6-12 month learning period after implementing the Intact Platform.

Total Lifetime Payback

- Over the total lifetime of their contracts with Intact (averaging 9.5 years), standard setters **increased revenue by 6.2 times their total investment**. Standard setters invest about 3% of their total revenue into Intact.

Annual Growth

- Standard setters **increased revenue by 36% annually** since implementing the Intact Platform.
- Standard setters increased their number of employees anywhere between 20% to 80% each year.

Qualitative Benefits

- Central repository of data; reliable, real-time data updates; better data management; lower risk
- Increased efficiency (internally and to customers)
- Standardized workflows; stable and controllable processes
- Visualization of performance; complete transparency; ability to track outcome and timeliness
- Professional communication with customers
- Easily scales with growth of organization

Industry Outlook

The industry is growing — stay competitive with Intact.

Market Position

- Standard setters expect a **10% increase in industry market growth annually** over the next 3 years.
- Standard setters estimate that **competitiveness within their markets will increase 30%** over the next 3 years.

Business Outlook

Standard setters predict:

- Strong increase in revenue over the next 3 years (+3.1 points on a scale of 0 to 5 from)
- Moderate to strong increase in customers over the next 3 years (+2.4 points on a scale of 0 to 5)
- Low to moderate increase in employees over the next three years (+1.6 points on a scale of 0 to 5)
